

PPP Lesson Plan Template

A ready-to-use planning sheet for the Presentation → Practice → Production framework, with space to design your own lesson.

How to Use This Template

Photocopy this page (or duplicate it digitally) before every lesson where you're introducing new language. Fill in each stage before you teach — the discipline of planning all three stages up front is what makes PPP work.

Lesson Details

Target Language: _____

Level: _____

Class size: _____

Total lesson time: _____

Stage 1 — Presentation

Introduce the language in a clear, meaningful context. Show it in use before you name it.

Context / situation I will use: _____

How I will model the language: _____

My CCQ (concept check question):

Time allocated: _____ *minutes*

Stage 2 — Practice

Controlled activities that build accuracy. This is not yet about fluency.

Controlled activity: _____

Materials needed:

How I will monitor / correct: _____

Time allocated: _____ minutes

Stage 3 — Production

Freer, communicative activities where learners use the language independently.

Communicative task:

Pair / group structure:

How I will give feedback afterward:

Time allocated: _____ minutes

Quick Reminders

- Don't skip Practice to save time — under-practised language collapses in Production.
- Check comprehension (CCQ) before moving to the next stage.
- In Production, circulate and note errors — don't interrupt the flow.
- One clear language target per lesson beats three unclear ones.
